RE: FWD: FWD: RE: different colors in design files version final\_FINAL?

At: designer@team23.de

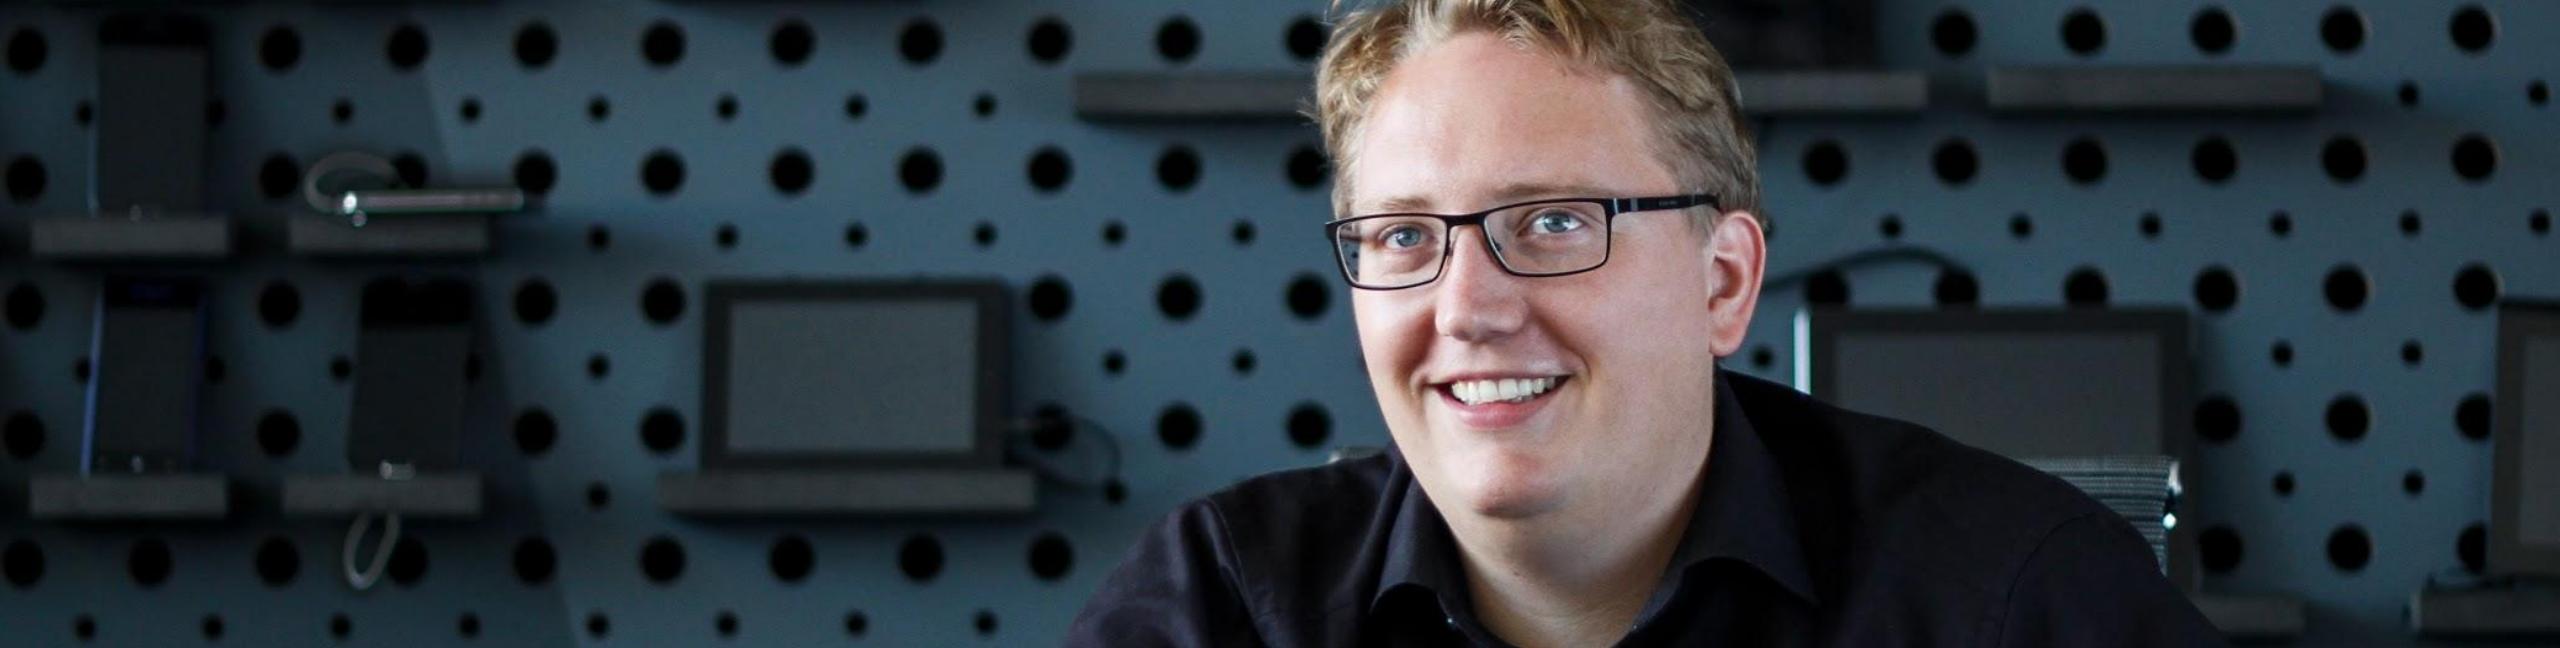

---

Hey @all,

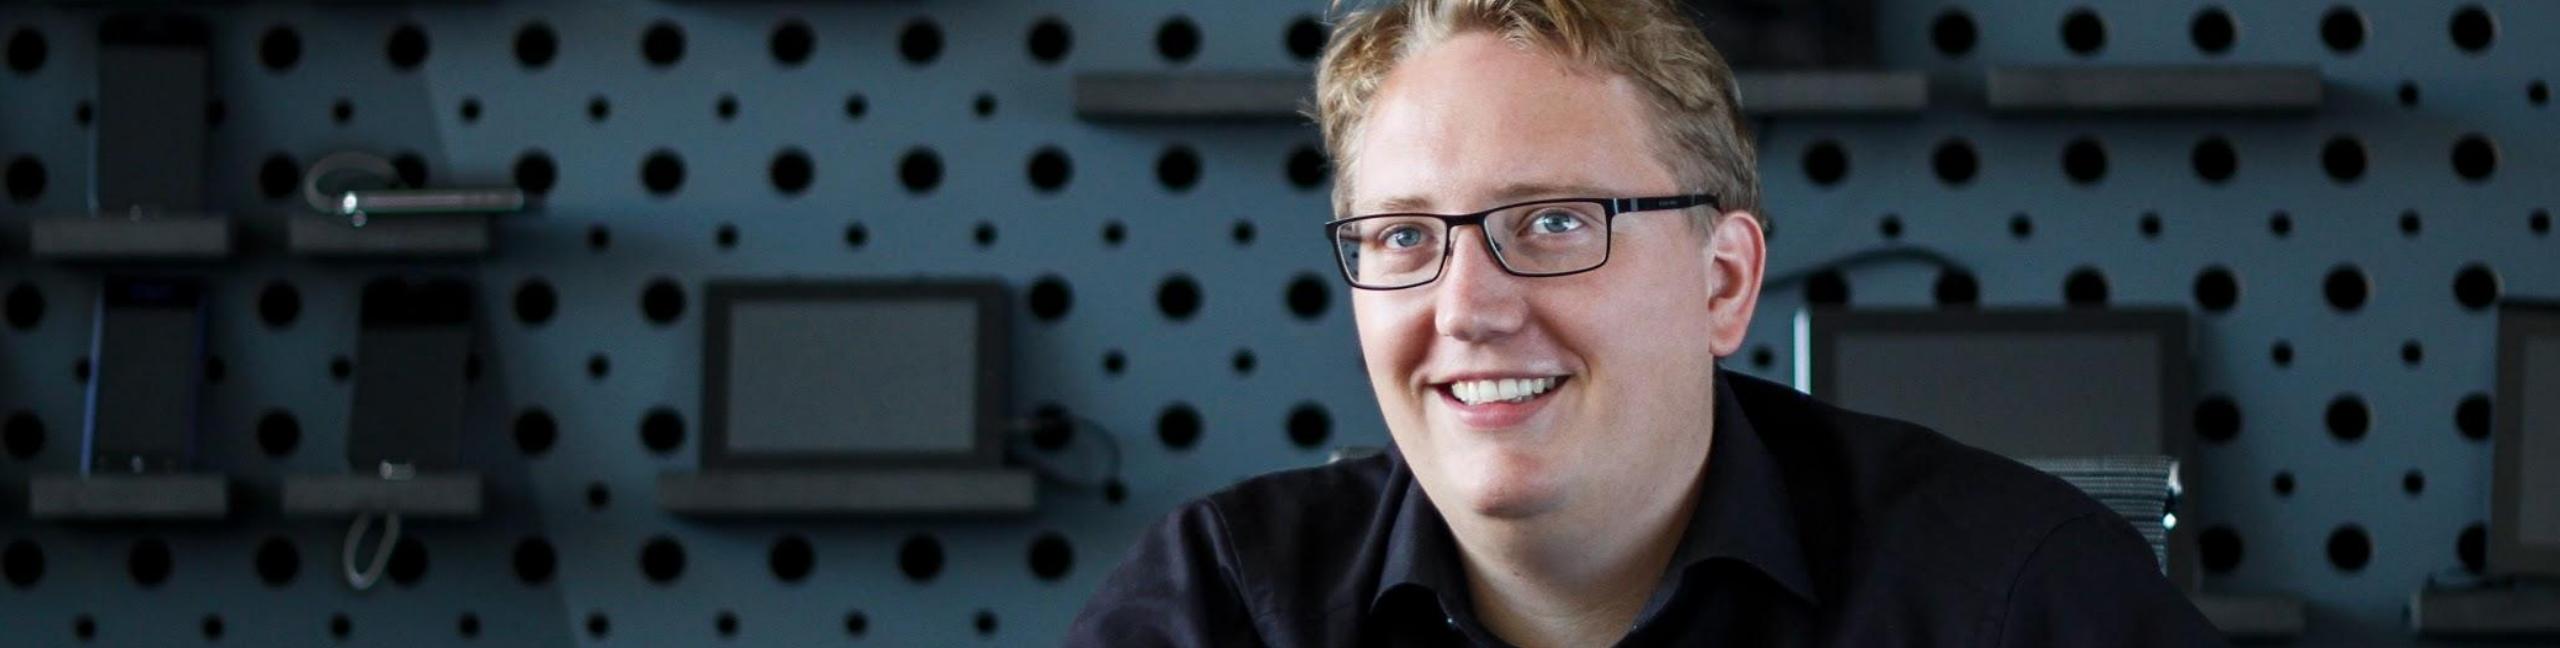

i noticed that the startpage and contactpage layouts use different colors than the previous designs. Just wanted to make sure that these are the most recent files and if this was intentional or not.

Also, is final\_FINAL final?

Best,  
John

Bewegung ist jetzt auch im Bereich UI & UX angekommen, durchdringt der Markt aber deutlich schwerfälliger.

Gestaltung oft noch in klassischen Markenagenturen angesiedelt. Wenig beweglich und etablierte, definierte Prozesse.

A screenshot of a pattern library interface. At the top, there is a horizontal color palette with nine colored circles labeled: Allgemein (dark blue), Kinder (red), Kosmetik (purple), Gesundheit (green), Bauen (light blue), Ernährung (yellow-green), Geld (blue), and Freizeit (orange). Below the palette are three rows of UI components. The first row shows a dark blue 'Button' component, a light gray 'Disabled' component, and a white 'Ghostbutton' component. The second row shows a dark blue 'Box Button Big' component with the subtext 'Subtext of the button', a dark blue 'Box Button' component, and a light gray 'Box Button Light' component. The third row shows a red 'Button' component, a light gray 'Disabled' component, and a white 'Ghostbutton' component. To the right of these rows is a 'Dropdown' component with a dropdown arrow and a placeholder input field.
